

GETCO₂

BRAND
GUIDELINES

WELCOME

Welcome to the GETCO₂ Brand Guidelines. The purpose of this document is to maintain consistency across all communication touch points of the brand and to inspire creativity when using the brand.

Using our brand correctly is very important to us, so please refer and adhere to this guide whenever you create any brand assets.

PRIMARY LOGO AND BRANDMARK VARIATIONS

PRIMARY LOGO

Our logo is the cornerstone of our identity and influences our brand system. From colours to the fonts our distinctive logo device provides the iconic brand style. Our name, in bold capitalised type, incorporates a stylised infinity symbol as the basis for CO₂ element. This landscape primary logo never changes and the logo cannot be used in any other colour combination.

PRIMARY BRAND

LOGO VARIATIONS

The positive and reversed inline brand is to be used mainly on white or teal background. Mono variations are only to be used in particular cases such as: background colour doesn't provide enough contrast to the landmark colours.

FULL COLOUR

REVERSE COLOUR

MONO BLACK

MONO WHITE

LOGO VARIATIONS

Logo variation in portrait or symbol version of logo to be used primarily for social media profiles.

LOGO USAGE AND RESTRICTIONS

The clear space around the logo has been established to avoid crowding. The space is determined by 'X' with 'X' equal to the height of half the word 'GET' in the standard logo. Please note that the isolation zone shown here must be seen as a minimum but can be greater.

MINIMUM LOGO HEIGHT

2

COLOUR PALETTE

COLOUR PALETTE

Our core colours are an anchor for our brand, building consistency and recognition. These four tones of help to harmonise the relationship between the red of our logo and the ‘old’ orange tab.

Our Core Colours are used primarily in our Dynamic Tab device. However, we also use our Core Colours in headline text, layout backgrounds and graphics, providing a visual link back to the Dynamic Tab device.

3

TYPOGRAPHY

KEY FONT

Our typography does more than transmit words. It helps to instill those words with the spirit and character of our brand, presenting GETCO₂ as a research organisation focusing on the future.
